OK. I will do that. I assume Michael.Mannino@westonsolutions.com is the email address?

God morning Eric,

Please can you grant share point access to Michael Mannino. He seems to be the only person in the office that was able to successfully open the share point, however, without access he can only see your name as administrator, but cannot see any folders or files.

I am not sure what the issue is with my computer and that of a few others in the office, but I do not want to delay making the analytical results available to you. I will work with Mike to upload the files once you confirm he has access.

I had 2 other people try it and it worked for them. I guess it has to be an issue with computer.

Thank you Eric.

Sorry Ben. I'm away from my laptop now. Can anyone else check the links from their computer?

Hi Ben:

How are you doing?

Below are the OneDrive Folders for each of the Sites that have un-validated soil data. Please upload the appropriate data packages to each folder. The priority order is listed below. Please notify Lyndsey and myself when each is complete. I hope all is well. Thanks

Hi Eric,

Please can you send me links to the specific Share Point folders of each NY rad site where you would like us to upload the analytical data packages.

Thanks,
